EDUCATION

University of Central Punjab, Lahore

Nov 2021– Jul 2025

- Bachelor of Software Engineering

Pak Turk Schools & Colleges, Lahore

Mar 2019– May 2021

- Intermediate in Computer Sciences

PROJECTS

Online Internet Services Website

- Developed a fully functional online Internet Services website as part of a team.
- Utilized HTML, CSS, Python and MySQL for backend database management.
- Implemented user authentication, product listings, and shopping cart functionality.

Gift-Wave

- Developed a modern iOS app tailored for Pakistan's market using SwiftUI and Firebase.
- Implemented Firebase Authentication, rider CNIC verification, and secure order placement with real-time tracking.
- Integrated MapKit navigation, ratings/reviews system, and a web-based admin dashboard for rider and order management.

Gym Guide Pro

- Created an iOS gym guide application with SwiftUI focusing on beginner-friendly exercise navigation.
- Implemented muscle group categorization, embedded exercise videos, and a favorites system with persistence.
- Developed rest timer, workout progress tracker, and achievement badges to enhance user engagement and motivation.

The Streamlining Dairy Operations

- Created a full-stack farm management system using React.js, FastAPI, MySQL, Docker, and Vite
- Implemented role-based dashboards (Admin, Manager, Worker) and a public-facing landing page for customers.
- Authored complete SRS documentation, including system diagrams, testing plans, and technical workflows.

Contact Management Web Application (MERN Stack)

- Developed a full-stack contact management system with Node.js, Express.js, MongoDB, and JavaScript.
- Built RESTful APIs, implemented JWT-based authentication, and secured communication with SSL.
- Enhanced security with rate limiting and designed scalable backend architecture.

Shopping Mobile App

- Built an Android application using Java and XML for browsing products, secure login, and cart management.
- Designed and integrated intuitive layouts, user flows, and Firebase backend to enhance shopping experience.
- Collaborated in a team environment to deliver a functional e-commerce mobile solution.

CERTIFICATES

- Introduction to MongoDB
- Programming for Everybody (Getting Started with Python)
- Prompt Engineering for ChatGPT

SKILLS

- **Languages:** C, C++, Java, JavaScript, HTML, CSS, XML, Swift
- **Technologies / Software:** Microsoft Word, PowerPoint, GitHub, MongoDB, Visual Studio, MySQL, Docker
- **Libraries / Frameworks:** React.js, Node.js, Express.js, RESTful APIs
