EDUCATION

University of Central Punjab, Lahore

Nov 2021– Jul 2025

- Bachelor of Software Engineering

Pak Turk Schools & Colleges, Lahore

Mar 2019– May 2021

- Intermediate in Computer Sciences

PROJECTS

Gym Guide Pro

- Developed a SwiftUI-based fitness app with guided workouts, progress tracking, and engagement features.

The Streamlining Dairy Operations

- Created a full-stack farm management system using React.js, FastAPI, MySQL, Docker, and Vite
- Implemented role-based dashboards (Admin, Manager, Worker) and a public-facing landing page for customers.
- Authored complete SRS documentation, including system diagrams, testing plans, and technical workflows.

Contact Management Web Application (MERN Stack)

- Built a secure MERN application with REST APIs, JWT authentication, and scalable backend architecture.

Shopping Mobile App

- Developed an Android e-commerce app with Firebase integration for product browsing, login, and cart management.

Converted Gym Guide Pro (React Native & SwiftUI)

- Converted the original SwiftUI Gym Guide Pro to React Native, implementing In-App Purchases (IAP) for premium features.
- Developed cross-platform guided workouts, progress tracking, and user engagement features for iOS and Android.

Sportify Website

- Developed a full-stack e-commerce platform where customers can buy products, sellers can post listings, and admins manage the system; integrated live events API for real-time ticketing.

EXPERIENCE

Full Stack Developer Intern (Frontend Focused)

System Limited | *July 2025 – November 2025*

- Worked as a Full Stack Developer Intern, primarily focused on frontend development.
- Built and enhanced responsive user interfaces while collaborating with backend teams.
- Integrated APIs and improved UI performance, usability, and code quality.

Mobile & Web Developer (iOS, Android & Micro-Frontend)

Medway Inc | *September 2025 – August 2026*

- Developed and maintained iOS (Swift/SwiftUI) and Android (Kotlin) applications of theirs .
- Integrated backend APIs for authentication and real-time data handling
- Contributed to micro-frontend web modules with scalable, modular UI.
- Optimized mobile and web components for performance and stability.

CERTIFICATES

- **Introduction to MongoDB**
- **Programming for Everybody (Getting Started with Python)**
- **Prompt Engineering for ChatGPT**

SKILLS

- **Languages:** Java, JavaScript, HTML, CSS, XML, Swift, Kotlin
- **Technologies / Software:** Microsoft Word, PowerPoint, GitHub, MongoDB, Visual Studio, MySQL, Docker
- **Libraries / Frameworks:** React.js, Node.js, Express.js ,React native , Tailwind CSS, RESTful APIs
